Dear Ray:

Here is a letter that I have received from Congressman John H. Tolen, together with an enclosure from Dr. Wolfgang Hallgarten.

I thought it should be brought to your attention.

Sincerely,

My dear Col. Donovan:

I am just in receipt of the enclosed letter from Dr. Wolfgang Hallgarten of 2905 Dwight Way, Berkeley, California, addressed to the Honorable John Z. Anderson and referred to me.

It occurs to me that this letter may prove highly suggestive to you in the plans for your work and I will be grateful if you will write to Dr. Hallgarten.

With all good wishes, I am

Yours truly,

Honorable John A. Anderson, M. C.  
U. S. Office Building  
Washington, D. C.

Dear Mr. Anderson:

Thank you for your lines of July 20  
in which you were good enough to say that the case of my mother  
is now under consideration. Kindly keep me informed about  
further developments, as the strain upon the nerves of all concerned,  
at one year's standstill and dooms, and seven painful years of emigra-  
tion, is becoming almost unbearable.

Yet the aim of this letter is not to  
raise your case in itself. Maybe a mistake has been committed  
by the State Department insofar as this matter surely was such  
that to grant the issuing of one or two hundred rescue  
visas would be granted to political refugees in the months  
ago when first broached the subject. It was with this idea in  
mind that I approached you last summer and the very thing  
which I may took as a matter of concern and appointment  
of U. S. Consul. Yet I've sent it in not this particular case which  
was to wait this letter. Instead, I will try to see things  
from a broader angle.

I, in the course have some of the best  
men, as well as the State Department, the Central (U. S.) and you yourself--  
both of us and native, and over hundred of letters and  
nothing more could be achieved than a series of  
visas which it is not yet sure whether they will finally  
be issued. In view of this, the situation of other refugees  
which you must be almost hopeless. I am the in  
the United States, too, but even those there are ad-  
mitted to the country concern me often bitter mean prevail over  
the fate of their relatives who are still expecting  
to be allowed to the United States and who could be saved if their  
case be given due consideration.

In the third, I fully understand  
that the nation like the United States has to fit its national  
policy, in a word, in a military emergency, thus, the  
United States cannot be expected to fit in and even those

-2-

refused admission, for the one or the other non-political reason, could not be brought to some temporary refuge, a kind of internment camp, outside Europe, be it in Canada or Alaska, which for the time being could be made extraterritorial, and where they would be safe against hunger and diseases. The Quakers, the big Jewish organizations, and the Catholic organizations, and many interested servants would certainly be willing to finance this. As it seems almost certain that Hitler, before long, will find his "Moscow" and even his "Waterloo", the United States as well as the Allies proper possess a vital interest in securing the existence of Europeans of all nations and races which could assist them in re-building a democratic Europe. The rescue work should be undertaken under the supervision of an expert like James G. Macdonald or others who could be appointed International Commissioner by the League of Nations which theoretically still exists and which should be re-built after the War.

But if the present policy "there is nothing we can do about this" prevails, the United States and Great Britain will deprive themselves of the help of social elements who could form the basis of a non-Fascist and non-Communist new Europe, and who could be immensely useful in assisting them in the liquidation of the Hitlerian Reich. I think the hour for active counter-propaganda against Hitler has come, and until now all the elements are starving in Europe while seeking integration into the U.S. might have to send "messengers" via the radio etc. etc., which under the present conditions - with the Germans getting disillusioned and the others becoming restless - have a good chance of being heard and understood.

In view of rendering these people hopeless, it could be wise to encourage them, or to save them, if not for final immigration into the U.S. at least for the establishment of a new order in the Old World. At the same time, this policy of greatly encouraging migrants like me, who, while desirous of becoming loyal U.S. citizens, could feel very much disturbed if the authorities would prevent them from seeing their relatives,

is it not this letter into the hands of your colleagues? If you intercede in these nations, that such a volume material as I could be able to cooperate, owing to my experience and training.

With my very best regards,

I saw your Mr. Borghardt this morning. I  
really was not able to do very much for him, as

blown off and the only people who appear to know  
anything about him recently are the American Consul

 New York, N.Y.

Dear Mr. Leisure,

Mr. Charles Gambrill has told me that you have very kindly offered to bring my name and qualifications to the attention of Colonel Donovan or to some member of his Office as Coordinator of Information in Washington.

I am interested particularly in a position as a research worker for political information, for radio speeches, or any sort of propaganda which will help win this war. I know French and Spanish well, have a reading knowledge of German and Italian, and for the last six months have been in Mexico, living in a Mexican government official's family studying Mexican economics and history at the University of Mexico.

Previous to last summer I have been employed for eight years as a research worker, reference librarian, bibliographer and book-buyer in the Newberry Library, Chicago. Two of my bibliographies have been published by the library and copies have been deposited in the Library of Congress in Washington.

I am enclosing with this letter a more comprehensive account of my education and experience.

Thank you very much for your interest and assistance, and I will be most grateful for any advice or information you could give me relative to the requirements and qualifications demanded by the Office of Coordinator of Information.

-2-

I expect to be in Washington next week until January 18th.,  
and any communication sent to me c/o Miss Constance Williams, Riggs rd.,  
Hyattsville, Maryland will reach me there. Otherwise my permanent address  
is the one at the head of this letter.

Most sincerely yours,

Memorandum re John A. Hastings:

He was born April 21, 1900, is married, has a family, attended public school, graduated from Polytechnic School. Also attended St. Joseph's College and Brooklyn College. During last war he served in official capacity with the War Camp Community Service. After the war got political job. Was elected to New York State Senate from Brooklyn in 1923 and served through 1932. He had a reputation in Albany as a lavish entertainer and a man who lived very far beyond his means. My Albany informant has a vague recollection of Hastings' being mixed up in some dope affair while in the Senate, but let me repeat that this is just a vague recollection.

I talked with Owen McGivern about him and Owen said this "Universally he is regarded as no good. He has a reputation of being a sharp-shooter, a con man and a fellow who, without hesitation, will cut corners. He was an intimate of Mayor Walker's, so intimate that he made a trip to the Coast with Walker when Walker pleaded the Mooney case before the Governor of California. He was mixed up with Block, a publisher and figured in the Seabury investigation. He was also mixed up in the Equitable Bus Scandal, and the last time he was heard of in New York was when he was trying to form a combine to interest investment in Mexican Oil and the people here say he has left for Mexico. The current impression here is that he is still in Mexico."

Can I do anything else.

Gentlemen:

One Hans Hannau, official Photographer for the Cromwell Hotel, Miami Beach, made a trip ten days ago over a period of four days with his photographic supplies and cameras and took many pictures of water fronts -

At Everglades City, 70 miles from here, he aroused so much suspicion that the officials of that City phoned the F.B.I. in Miami and told them of what he was doing -

He used the car belonging to the Hostess of the Cromwell Hotel, a Miss Agnes Steinack, she went along, as she also went along to New York with this man early this summer and they contacted many people and as always the conversations were in German - Mrs. Steinack is not German and does not understand the language and in opinion of many Hannau uses her as a blind to take his pictures and interview certain Germans in New York City.

This man claims to be a refugee from Vienna; states he was Police Commissioner and had to flee; he has valuable camera equipment in his dark room on a side street in Miami Beach - during the hurricane he was much disturbed and his equipment which he valued at \$3000 had to be moved and it was midnight before it was all placed in safety -

His contacts are all Germans from South America and New York City -

He states he is broke - and had to have a job; has been in this country one year and taken his first papers.

Yet at times he has a lot of money and his South American friends are more than wealthy they come to the Cromwell to visit him a fashionable Hotel on the Ocean front. All his contacts are Germans - he is in touch with Germany by mail - says he gets requests for money for his father and mother and goes around to other Germans here and collects monies to send them via South American mail.

He is a Roman Catholic.

His wife, is at present, tho they have two very small children, posing as a model in New York City - a rather strange procedure.

Suggest this is a key Nazi agent - since while he claims to be broke and has no money and needs a job he at times has large sum for travelling to New York City and his photographic equipment goes into thousands of dollars.

Furthermore, please bear in mind that Miss Steinack, the official social hostess of the Cromwell Hotel, is the sister-in-law of an important Pan American official and she was overheard telling Hannau a lot of plans the Pan American Airways has for future handling of airplanes.

Not for one minute does the writer suspect Miss Steinack, she is just being used by this man as a blind and does not realize the situation.

The officials of Everglades City - just plain cracker to the poor people - even had their suspicions aroused by his photographing the water front there and phoned the F.B.I. but Miss Steinack reassured the F.B.I. that everything was O.K. She made statement Hannau had an assignment for those and other locations.

A patriot.

Dear Harry:

Armand Hammer, who wrote this attached memorandum, and who owns the house in Fourth Street where we relaxed after a dinner at Chambord, is the purchasing agent in the United States for the King of Egypt.

He is leaving for Egypt shortly to deliver some sort of monstrous Land Clipper with the King just bought through him from the Chevrolet Division of General Motors. He says that he sees the King on a rather intimate, personal basis and he wants to put himself at your disposal for any possible public use. I believe the President has already talked with him, on Senator King's suggestion, on the subject of Atlantic bases.

He also operated successfully as the first American concessionnaire in Russia between 1921 and 1930.

If you would like to talk with Dr. Hammer, let me know and I will arrange it, or you can communicate with him directly at The Hammer Galleries, 682 Fifth Avenue, Circle 7-1757.

SUBJECT: BURILL HOFFMAN

I interviewed today Burill Hoffman,

obtained a diploma at the Beaux Arts in Paris,  
owns a house in Paris and his French is good.  
He was in the Engineers in the last war and  
has lately tried to be commissioned in the

He seems in fine physical health and seems he  
might be useful in connection with making

is willing to be used either here or abroad.  
Remuneration would be no object to him.  
Colonel Donovan knows him slightly and he is

Re: Soviet Espionage in the United States.

Subject: Soviet Espionage in the United States. This memorandum is to advise you of the following information concerning the Soviet Espionage in the United States.

The Soviet Union has been engaged in espionage activities against the United States for many years. The most recent and significant example of this was the theft of the atomic bomb secrets from the United States by Klaus Fuchs, a member of the British atomic bomb project.

In addition to the atomic bomb, the Soviets have also obtained classified information on other areas of American science and technology, such as space exploration and nuclear power.

The Soviet Union has also been involved in espionage activities against the United States through its intelligence agencies, such as the KGB, which has been responsible for numerous cases of espionage against the United States.

SUBJECT: ALBAN L. HOLZINGER  
The Indiana Office -- Report No. 1820

(DRAFT) (CONFIDENTIAL - PERIODIC EDITION)  
(DRAFT) (PERIODIC EDITION)

Director of the Princeton Telephone Company, Princeton, N.J.  
December 12, 1961

Dear Sir: Please find herewith a copy of the following report  
of the Princeton Telephone Company, dated December 12, 1961.

The report concerns the Business Department of the  
Company.

It will be noted that the report is dated December 12, 1961, Service  
of the Report to the Director of the Company, dated December 12, 1961,  
is dated December 12, 1961, and the report itself is dated December 12, 1961.

The report is in effect. Could you let  
me know if it is still required. While probably not  
necessary, the report would have to be destroyed  
if it is no longer required to be kept in the office.  
Please let me know if this is very important to the P.T.C.

It is very rarely that I find myself able to recommend any women for Intelligence work. I can do so with confidence in the case of Miss Elizabeth HUMES, c/o State Department, Washington, D.C., or alternatively, private address: c/o Mrs. Mary Clark, 800, Twenty-First Street, N.W., Washington, D.C.

2. Miss HUMES has spent the last 25 years in Europe firstly under the Commercial Department, Washington, but transferred to the State Department as a Consular Official in, I think, 1938 or 1939. Speaks Italian, French and German fluently and has a good knowledge of those countries. Is a good judge of political situations and information, and very objective in views. Is particularly well informed about Italy and personalities in Italy. Last heard of when she was in the American Legation or Consulate in Copenhagen, where she had been since 1939. Is probably now en route to the States via Lisbon, but I am not certain of this.

3. I know of no one to whom I would rather submit a report on Italy for an opinion as to exactitude and reliability. If our friend E.P. wants a "good number" and could obtain the loan of her services from the State Department, he would make no mistake.

4. One reservation - she probably would not be interested in what is known as Security Intelligence. Her bent lies in the more active side.

It might be that your friends, in their initial stages, will require some guidance as to what a good operational Intelligence report looks like. I think the two attached papers are very good samples of what is really wanted this side, - no head lines, plain hard facts on which the armed forces can take action.

NAVAL - BREST.

1. "PRINZ EUGEN": Source corrects information given previously on bombing of this ship (see Report A.5/417 of 17. 7. 41).
  - a) There was definitely one bomb on the crew's quarters, killing 54 and wounding 60.
  - b) It is not certain that a bomb fell on the funnel.
  - c) The exact extent of the damage is not known, but is certainly serious.
2. "GNEISENAU": The propeller shaft stubs (troncon d'arbre - sic) have still not arrived from Germany.
3. SUBMARINES: There are today 5 German submarines of 650 to 700 tons refitting at BREST:

One at Berth 7.  
 One at Berth 11.  
 One at Berth 15.  
 One at Berth 16.

The crews are resting at VILLENEUVE.

The submarine shelters at the western jetty are not yet completed owing to lack of lorries.

4. The following is the text of a letter from the German Admiralty, dated March 26th, addressed to the Arsenal at BREST:

"BNR/3170/111.  
 For Naval Constructions.  
 Object: Material for battleship "RICHELIEU".  
 Reference BNON/365 N of March 15, 1941.

The German Administration at the Arsenal, in its memo 1990/3/42 of February 26th, wished to know by February 28th, if the parts listed in the sheet attached to memo 1990 were to be found at Brest and in what condition.

No reply has yet been received.

In the memo referred to above, a pass is asked for. This document cannot be delivered until a reply has been received.

The responsibility for this delay, and for the consequent delay in the completion of the "RICHELIEU" lies with the French Administration of the Arsenal.

Dear Colonel Donovan:

I received your letter of Oct. 31, in which you inform me that I may receive from time to time an entry certificate for a ten day period.

I take the liberty to report that a principle change in the organizing service has been made, that is, our service in the U.S.A. shall work independently from our service in Canada.

Management of the service in the U.S.A. has been entrusted to Major Col. I am who is in contact with your office.

Therefore, I presume that the solution of which you informed me will answer my purpose, because I shall make occasional trips to the U.S.A. for the purpose of cooperation with our service in the U.S.A.

Thank you for the kindness with which you devoted yourself to this matter.

Yours very truly,

Dear Colonel Hutzlik:

We have taken up with the State Department the matter of your visa, but find that they are not willing to issue a permanent visa in this situation. They will be willing, however, to issue a limited entry certificate, which is valid for only a ten-day period. We understand that, for cause shown, these certificates may be extended from time to time.

Will you please advise us if this arrangement will be satisfactory.

Sincerely,

Wm. H. Donovan, Esq.,  
Coordinator of Information  
Washington, D.C.

Dear Sir,

I wish to thank you for your kind reception of Lt-Col Hren in Washington on September 24th and for the interest you expressed for our collaboration arranged in Washington in August of this year.

On my part, I shall do everything that will be necessary for the success of this collaboration.

As I am responsible to the Czechoslovak Ministry of National Defense in London for this kind of service, it will sometimes be necessary for me to convince myself personally as to how our agents are carrying out this work, even though I have authorized Lt-Col Hren to act as director and liaison official exclusively in his interests of secrecy and practical execution. I would cover up such trips by finding some other purpose, such as an ordinary visit, etc.

I presume that in such case, it would be practical that I receive a permanent visa which was granted to Lt-Col Hren.

If you are of the same opinion, I would be grateful if you would make approach the competent authorities. Otherwise, I would do the same from time to time.

The present visa is valid until May 6th, 1942, by the Canadian Dept. of External Affairs in London.

Yours very truly,

/s/ Gen. G. Hrubik  
Director of the Czechoslovak  
Military Mission in Canada

Sir:

I have the honour to inform you that on the order of the Czechoslovak Authorities in London, I have been transferred to New York as of today, in order that I might devote myself to direct collaboration in combatting the subversive elements in the United States.

The visa I obtained through your kind services allows me residence in the United States until August 1942.

In accordance with the Memorandum which I submitted to you on September 23rd of this year, I shall endeavour to be of service to your Authorities to the best of my ability and thus work indirectly towards the liberation of my occupied country.

I further beg to inform you that I am organising from among Czechoslovak citizens a net of informers in Central and South America and shall submit to you the results thus acquired.

I should be grateful if you would continue to give my work your valuable sympathy.

Very truly yours,
